Melanie McCord

Miami, FL 33183| 786-599-0996 | melanie.mccord19@ncf.edu | https://www.linkedin.com/in/melanie-mccord/

Education

New College of Florida **May 2023**
Bachelor of Arts in Computer Science Sarasota, FL
Miami Dade College **August 2019**
Associate of Arts Degree Miami, FL
GPA 3.89

Relevant Coursework

- Machine Learning for Visual Thinkers
- Usable Privacy and Security
- Game Development Tutorial
- Software Engineering
- Algorithms
- Data Structures
- Calculus I & II
- Linear Algebra
- Dealing With Data I
- Object-Oriented Programming
- Object-Oriented Design

Computer Science Projects

Independent Study Project (ISP)

- Analyzed the paper A Compact Embedding for Facial Expression Similarity
- Learned Unix command line through SSH, using Vim and Jupyter Notebook for editing code.
- Fixed bugs in AmirSh15's implementation of the Google paper's model using OpenCV and PyTorch.

Final project for Usable Privacy and Security

- Collaborated to investigate the usability of Instagram's privacy settings.
- Investigated 20 Instagram posts from 6 users focusing on their understanding of privacy and reach.
- Surveyed them using Survey Monkey and analyzed the results.
- Redesigned Instagram's privacy settings to enhance usability.

Independent Study Project (ISP)

- Collaborative ISP to design and build a 2D video game to show how manatees are affected by boats.
- Utilized JavaScript using Cocos Creator and Microsoft Visual Studio 2017.
- Implemented sprites, movement, keyboard input, music.
- Gained proficiency in Github.

Sugar Scape

- Created an object-oriented simulation of Axtell and Epstein's SugarScape using Java.
- Implemented several sorting algorithms, 23 classes, and inheritance.
- Created a simulation of an artificial society where agents depend on sugar from other squares and implemented rules for their behavior.

Campus and Community Involvement

Volunteer December 2018-May 2019
Miami Dade Public Library, Miami, FL

- Used a database system to input books and their AR codes, withdrew books.

New College Swim Club August 2019-March 2020

- Swam 4 times per week, worked on strength and endurance.

Technical Skills

- Python
- Java
- JavaScript
- C++
- R
